

User focus: User		
User story theme: Requesting Software		
<i>As a User I want to request access so that I can use the software</i>		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the user starts a software request, when the user inputs the start of an acronym, then the rest will be suggested [Positive]		*
Given the user inputs an invalid name, when they try to submit the request, then an error will be thrown (negative)		*
Given the user inputs all form data, when they press submit, then the data will be sanitized and inserted into DB table (positive)		*

User focus: Approver		
User story theme: Approving Requests		
<i>As an Approver I want to view software requests so that I can approve or deny them</i>		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the approver is signed in, when the page is loaded, then the list of pending requests needing approval will be dynamically generated (positive)		*
Given the approver has pending requests, when they click on one of them, then the popup will provide yes/no options (positive)		*
Given the approver is viewing a request, when they click on the wrong choice, then another popup will be created asking for confirmation (negative)		*

User focus: Analyst		
User story theme: Approving Approvers		
<i>As an analyst I want to view approved software request so that I can contact the Approver</i>		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the analyst is signed in, when the page is loaded, then the list of pre-approved requests will be dynamically generated (positive)		*
Given the analyst has requests approved and awaiting verification, when they click on one of them, then a popup will be generated asking to approve or deny the request (positive)		*
Given the analyst wants to approve a request, when they click on approve, then the contact information for the approver will be loaded from the DB (positive)		*

User focus: Analyst		
User story theme: Contacting Approver		
<i>As an Analyst I want to retrieve Approver contact info so that I can inform them of verification</i>		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the analyst has selected a request, when they click on approve request, then the contact information will be displayed so they can manually verify with the approver (positive)		*
Given the analyst has a request selected, when they click on deny by accident, then another prompt will be loaded to confirm that they meant to deny them (negative)		*

User focus: Analyst		
User story theme: Adding User to list		
As an Approver I want to add a User to the database so that they can use the software		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the analyst has contacted the approver, when they click to finally confirm the request, then the request will get loaded into the completed list of software requests (positive)		*
Given the analyst intends to add the request to the approved list, when they click the wrong button, then the window will return to the original yes/no selection		*

User focus: Analyst		
User story theme: Contact User		
As an analyst I want to contact the User to inform them of their verification status		
Acceptance test-driven development criteria (ATDD) (positive/negative)	Failed	Passed
Given the analyst wants to view approved requests, when the page loads, then approved requests where the user has not been contacted will be loaded (positive)		*
Given the analyst enters an approved request, when they select to contact the user, then a form will load for an email integration (mailto:)? to send confirmation (positive)	*	
Given the analyst accidentally enters a request, when they select to close the contact box, then no form of contact will be made and the request will remain on the pending list (negative)		*
